Choose one course and look at what it leads to. Find the prerequisites needed, future courses it unlocks, and the careers it connects to.

Rating:

Thoughts or Feedback?

Task 7: Overall Usefulness:

Imagine enrolment into courses open tomorrow. Would you use SkillPath before selecting your courses?

Rating:

Why or Why not?

Final Questions We could ask:

1. What was the most useful feature?
2. What was the most confusing feature?
3. What could be improved?
4. What features could be added next?
5. Would you use this every semester? Why or why not?
