Discussion Notes

- The meeting commenced with a brief discussion to ensure the team is on the same page: confirmed that interview transcripts are finalised, reminded members to start or complete their self-assessment and self-reflection, and established consistent file naming conventions, particularly for interview transcript files.
- Discussed how to draft the **Value Proposition Canvas**, by going through the textbook provided on the BlackBoard (<https://uq.pressbooks.pub/introduction-software-innovation/chapter/value-proposition-canvas/>), reviewing the requirements and examining the provided examples.
- The team decided to combine insights from each team member's learning card based on their respective interview transcripts. Since everyone had different findings from their interviews, this allowed us to collectively build out the Value Proposition Canvas
- Finally, the team ensured that everyone understood what needs to be submitted before the due date (2 April 2026), assigned a team member to handle the single group submission, and reminded everyone to submit their self-reflection on time.
